 [Michael Anthony Capricho](#)

EDUCATION

ICT – Computer Programming (AMA Cavite Campus) 2016 – 2018

- Academic Excellence Award

Bachelor of Science in Information Technology (Cavite State University-CCAT) 2018 – 2023

- Vice-President Lister
- Cum Laude

EXPERIENCE

Software Programmer

August 2023 – June 2025

Datascope Communications (Phil.), Inc

- Debugged and developed high-performance C/C++ file validation program that processed hundreds of records per second, reducing manual output errors.
- Automated data workflows and created validation reports using C#.NET and LINQ, improving efficiency for datasets containing millions of records.
- Enhanced system reliability and optimized memory handling by integrating in-house DLLs and external libraries, reducing file output errors.
- Created documentation efforts by creating SDLC process and flowcharts, improved team onboarding time.

RESEARCH PROJECT

WebPOS: Computerized Food Ordering Web-Based System

- Developed a QR-based ordering system with online payment using Paypal API and PayMongo API that reduced average manual order processing time.
- Automated real-time inventory adjustments minimized stock discrepancies.
- Used JavaScript, Node.js, JQuery and Firebase Database to build a scalable backend serving over a hundred daily customers.

SKILLS

Programming Languages & Tools: C#, C++, JavaScript, HTML, CSS, Node.js, jQuery, .NET

Database Management: Firebase Database, SQL

Other Skills: Photo & Video Editing, Laptop/Desktop Technician, Hardware Troubleshooting
